ExaDigm and Contour Networks Announce Launch of ExaDigm GT Cellular Gateway Routers at the WorldPay ATM Distributor Conference 2011

SANTA ANA, CA and ATLANTA, GA – September 14, 2011 – ExaDigm Inc., a leading innovator in connectivity and terminal solutions and Contour Networks, the leader in providing a PCI-certified cellular network, announced today the availability of the ExaDigm GT Series Cellular Gateway Router on Contour's PCI-certified network.

The new ExaDigm GT Series router is designed to connect existing and new ATM terminals via secure cellular data networks as a low cost alternative to broadband IP connections. The GT features support for 3G as well as 2G cellular radios, and both CDMA and GSM options.

Contour Networks offers low-cost, PCI certified, secure cellular wireless data connectivity services and dedicated private host connections to WorldPay, providing a fully secure private line connection for less than half the cost of a current phone line. ATM and other connected devices are never exposed to the Internet.

"This is a great best-of-breed formula," offers David Graybeal, Vice President of Sales for ExaDigm, "our gateway routers offer the most cost effective solution with the flexibility to connect Ethernet ATM and POS terminals using cellular connectivity. Working with Contour to bring a secure and cost optimized cellular network to our customers in the ATM space is a powerful combination that can provide a tremendous amount of value to our customers".

"Contour offers secure cellular wireless connectivity services that strike balance a between high security and low cost. This balance has become more important than ever to ATM owners and financial service providers as security compliance standards such as PCI are being enhanced", said Marc Winn, President of Contour Networks. "Cellular routers are an essential part of the end-to-end secure connectivity solution, and the ExaDigm GT Cellular Gateway routers provide attractive choices to our customers."

Contour Networks is a Master Distributor for ExaDigm and the GT Series router. For more information on the solution or to order the GT Series router, please contact Contour Networks at 1.404.347.8355 or sales@contournetworks.com.
